Lennart Möller sets out to follow the chain of events described in Genesis 11 to Exodus 40. He shows where Ur was located, where the remains of Sodom & Gomorrah can be found today, who

Joseph was in Egyptian history, and the detailed evidence of who Moses was represented by in the ancient Egyptian records.

Using ancient maps, satellite photography, underwater exploration and other methods available to the modern researcher, Dr. Möller brings an unusual clarity to issues that have been clouded for centuries.
